Fix My Data Retainer

A monthly retainer for strategic data cleanup and structure improvements. Think of it as magical composting for your CRM.

Better data takes time, training, and a focused task list. It also takes time and resources that your team need to focus on mission-critical work.

The **Fix My Data Retainer** clears the cobwebs with strategic cleanup, smart structure, and ongoing support.

Trade duplicated donors, vanishing volunteers, and reports that fizzle for a strong data foundation for all your activities.

Ideal for leaders ready to have their data serve the mission strongly, accurately, and with intention.

Base Package ($1500 - $5000 USD/month)	Optional Add-Ons (one time or recurring)
Data cleanup and system improvements	Board-ready data reporting
Managing data imports and exports	Security and permission protocols
System admin and end user training	New integration set-up and training
Asynchronous support during business hours	System migration

About Witch-Ways

Witch-Ways is a boutique consultancy that helps nonprofit teams clean up, clarify, and work with their data more effectively. We have experience with multiple CRMs and are never afraid to dig into spreadsheets. Email us for more information about our packages - we'll respond within 2 business days.
